

# Get Mail.ru API key pair

**Step 1:** Sign in with your Mail.ru account. If you haven't had an account, please create one.

Click on this page <https://api.mail.ru/sites/my/add/>

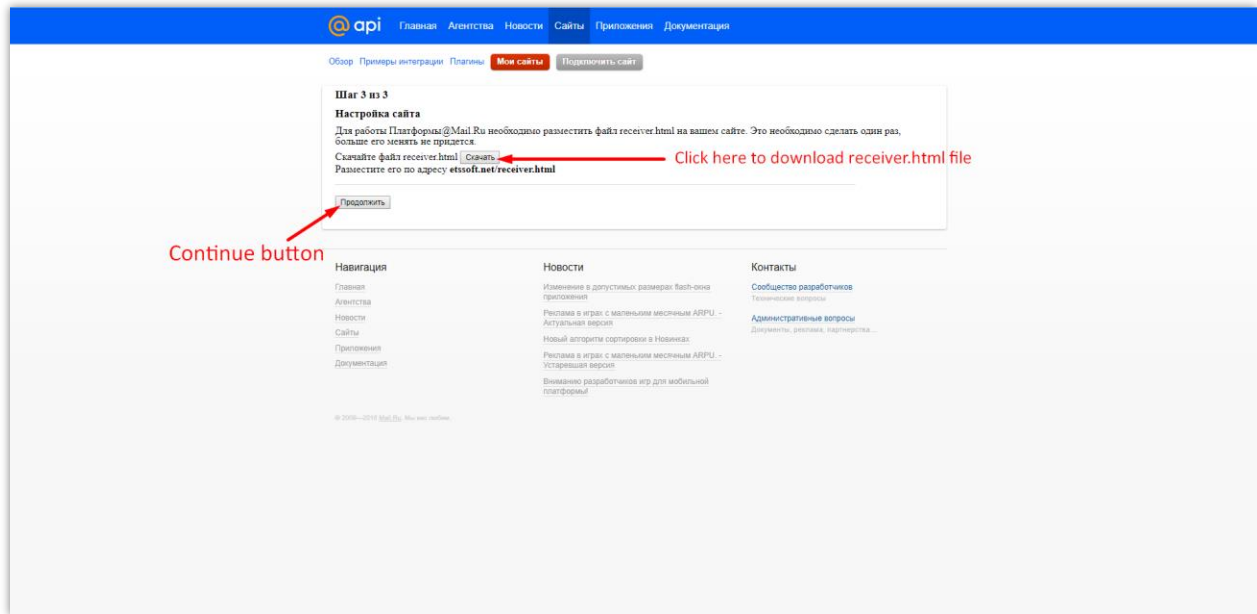

Accept **Terms and conditions** and click the **Next** button.

The screenshot shows the 'Step 1 of 3' registration page. The main content is a scrollable area titled 'Правила использования' (Terms of Use). It contains a detailed text block explaining the agreement between the user and Mail.ru. Below the text, there is a checkbox with the text 'Я принимаю правила использования Платформы@Mail.Ru' (I accept the terms of use of the Platform@Mail.Ru). A red box highlights this checkbox, and a red arrow points to it. Below the checkbox is a 'Продолжить' (Continue) button. The page also features a navigation menu on the left and a footer with copyright information.

**Step 2:** Enter your site name and your site URL. Click **Continue** button.

The screenshot shows the 'Step 2 of 3' registration page. The main content is a form titled 'Информация о сайте' (Site Information). It has two input fields: 'Название:' (Name) with the placeholder text 'Your site name' and 'Адрес главной страницы:' (Main page address) with the placeholder text 'Your site URL'. Below the fields is a 'Продолжить' (Continue) button. A red arrow points to this button, and the text 'Continue button' is written in red next to it. The page layout is consistent with the previous screenshot, including the navigation menu and footer.

**Step 3:** Download **receiver.html**. Put **receiver.html** in the root folder of your site >  
Click **Continue** button.

**Step 4:** Copy **ID** and **Secret key** and paste them to **Social Login** module back office.
