Get Reddit API key pair
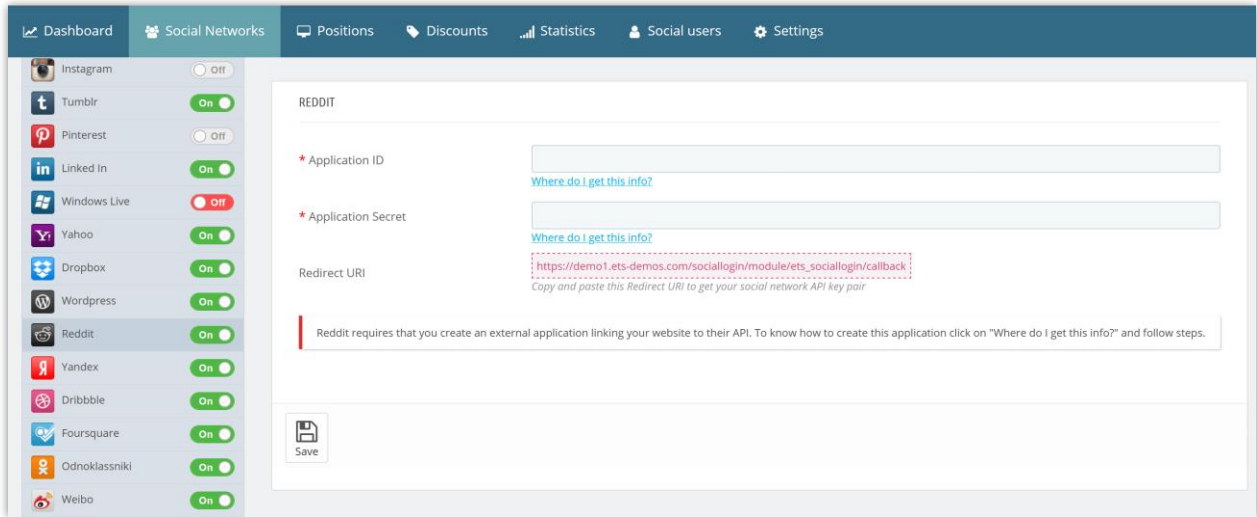

Step 1: Open https://www.reddit.com/ and log in with your Reddit account. Then navigate to this page https://www.reddit.com/prefs/apps

**Step 2**: Click on "**Create an app/Create another app"** button.
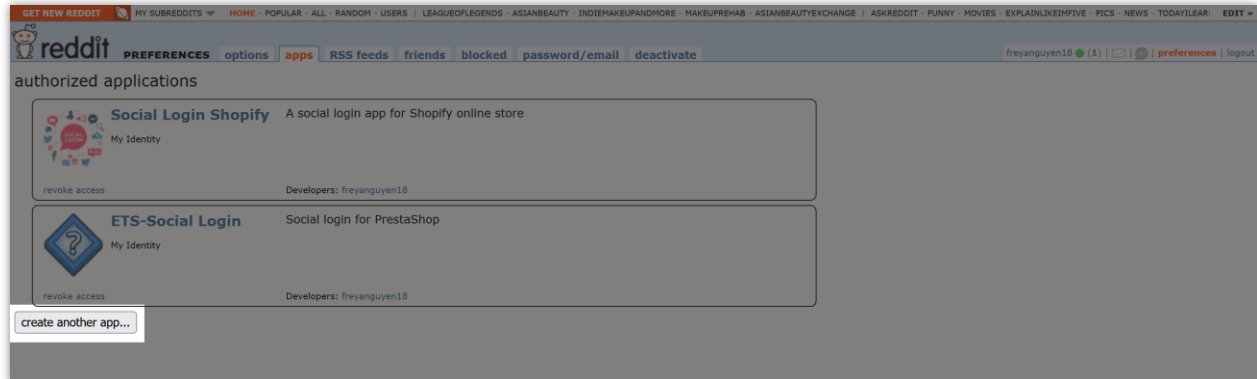

Step 3: Enter app name, description. "**About URL**" should be your website URL. Enter the redirect URI provided by **Social Login** module.
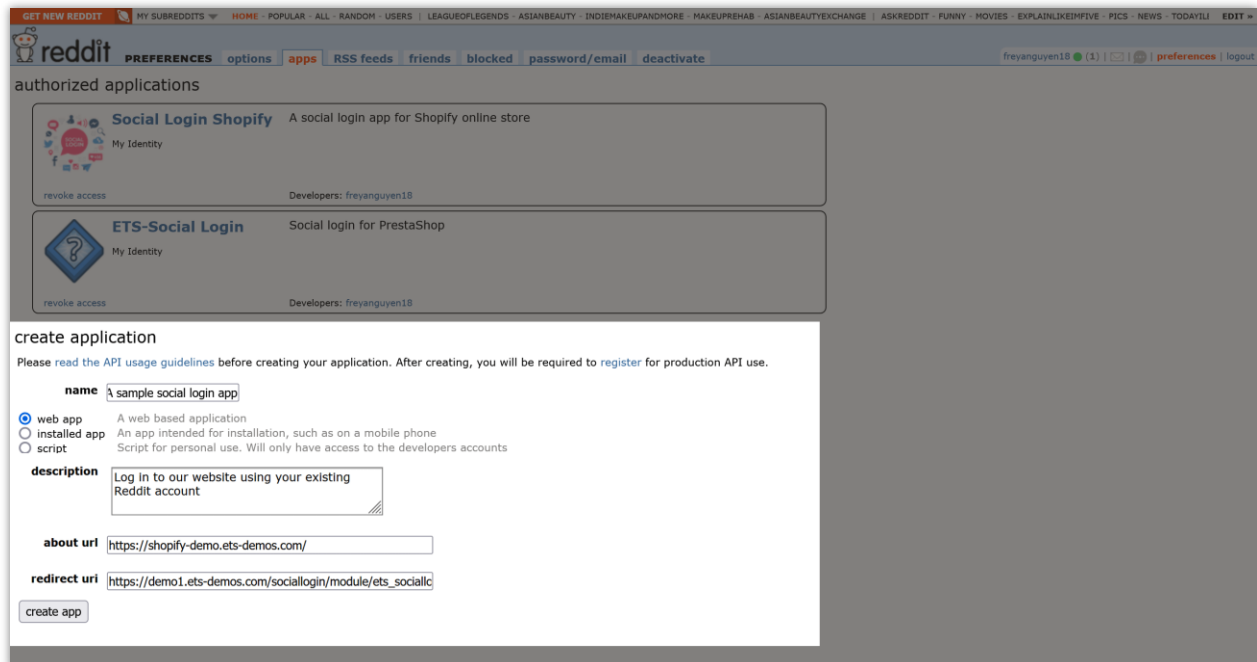

Step 4: Navigate to **"apps"** tab > Click "**edit**" to get more detailed info on your newly created app.

Step 5: Copy **web app (App ID)** and **secret (App secret)** to **Social Login** module configuration page.
